

5th IndianOil Petrochemical Conclave 4th February 2016

Petrochemicals & The New Global Economic Order

*Mr. Sanjay Sharma
Vice President - MDE and India
IHS Chemical Consulting*

Synopsis

The world economy remains in low gear with only a modest pickup in growth is expected in 2016. During last four years global growth is stuck in low gear between 2.5 to 3 percent, which eventually has impacted petrochemical industry growth and has led to slow absorption of excess capacity. This presentation will provide an overview of Global Macroeconomics, new Energy industry order and consequences for the Petrochemicals Industry.
