Internet of Things

*Ms. Preethy Krishnamurthy
Senior Product Marketing Manager
IoT, Microsoft*

Synopsis

The Internet of Things has kept plenty of technology journalists busy during the past year, but few have answered the most important questions of how to make it relevant to your business today. Instead, it often seems overwhelming, complicated, and expensive. In my presentation, I hope to explain how to look beyond the hype and start on a path that will unlock the potential of the Internet of Your Things. Real, transformative results in your organization await, and it's easier than you think
